

## Allergens

All products are made in a kitchen that handles nuts, gluten & milk, plus all other major allergens. If you would like an item to exclude an ingredient for lifestyle purposes, this may be possible.

I also offer a Made Without Range, however I cannot guarantee they are "free from" & therefore **are not suitable for allergy sufferers**. Please note, the Made Without Range may incur additional charges due to specific products being required..

Please use the Allergen List to help you when ordering but please never assume that my products don't contain an allergen, just because it is a baked good or dessert. Some ingredients contain inobvious allergens e.g. some sprinkles contain fish gelatine.

As a mummy of 2 children with allergies, I take ingredient responsibility seriously.

**Please let me know of any allergies or dietary requirements when ordering.**

Feel free to email for a full ingredients list or with questions.
